

Day and Sons, Inc.

Capabilities Statement

MBE Certified

ABOUT US

Established in 2004 by Kevin Day, Day and Sons, Inc. began underground utility construction in Maryland. The company became a certified MBE in the State of Maryland, Virginia and Delaware the following year. For nine years Day and Sons Inc. Worked for numerous entities installing wet and dry utilities through open trench and horizontal directional drilling methods. In 2013 Day and Sons, Inc. began working on BGE's Operation Pipeline (BOP) as a qualified contractor installing gas mains and services throughout Maryland. In 2014 Day and Sons Inc. was awarded contractor of choice by First Energy and Potomac Edison to complete primary underground cable distribution renewal projects which are currently still on going. Day & Sons Inc. expanded our gas service sector in 2018 and 2019 by initializing projects in Gas Service, Gas Corrosion, and Gas Main work. As a result of our efforts, Day & Sons Inc. was awarded as a prime contractor of choice from Exelon Corporation. Day & Sons Inc. has extended Pro-Active, Re-Active , Gas Main, and Corrosion crews throughout Maryland to complete various projects for Exelon Corporation. Gas Main crews are equipped to install 2" through 8" plastic HDPE pipe and are accompanied by hydro excavation trucks with 12 cubic yard capacity. Our project coordinator is able to assist homeowners and Utility Owner superintendents to ensure quality work is completed.
